

Son of Refugees

In this book, while the author is translating his fathers Greek manuscripts written some thirty years ago, he describes life, suffering, and struggle to survive in the cruel world of the twentieth century. His father and mother both born in Greek cities of Asia Minor escaped the Turkish brutality and the Hellenic Holocaust of 1916 to 1922. They came to Greece in 1922 and survived the difficult and inhumane conditions of the refugee settlements. There they met, were married some time in 1935, and after losing their first child to poverty and conditions unfit to human dignity, they brought to this world in 1937 the author of this book, who was followed by seven other children. The author and five of the siblings are still alive today.
