

# The Attack of Everything

A new collection of astonishing art and music featuring dark creatures. A festering catalogue of lurking creatures - rampaging giants, alien menaces, mad scientists, terrifying demons, spectres and others! Jad Fair is the master of the paper cut-out, and here renders the many facets of darkness in black, black card. At turns funny, exquisite, disturbing and intricate, Jads cut-outs are always beautiful, and are accompanied here by lyrics from his famous monster songs. The book comes with an album-length CD, featuring all-new tracks co-created with Jason Willett.
