

One fateful day in 1996, after discovering that five freight cars worth of glittering corn have reaped a tiny profit of \$18.16, young Forrest Pritchard vows to save his familys farm. What ensues-through hilarious encounters with all manner of livestock and colorful local characters-is a crash course in sustainable agriculture. Pritchards biggest ally is his renegade father, who initially questions his sons career choice and rejects organic foods for sugary mainstream fare. But just when the farm starts to turn heads at local farmers markets, his fathers health takes a turn for the worse. With poetry and humor, this inspiring memoir tugs on your heartstrings and feeds your soul long after youve finished.
