

Market Triangulation: Spiritual Investing & Trading

This book replaces the successful No:1 Market Top Secret. Written with two thoughts in mind and that is declaring the truth on how the markets move and it was written for spiritual people. You are not a Spiritual and do you do not want to know how the markets move from a Spiritual point of view, then, you should purchase the compact copy of The No:1 Market Top Secret or if you are an professional or have advance trading skill you should buy The Mathematically Correct Rhythm wave Model. In this book the author demonstrates that the Law of Vibration and Harmony is in control. Yes the imputes may be different all the time but the fact remains the markets are and must leave a mathematical trail and must comply with the mathematics of the universe. This Mathematical trail if you will is 100% predictable, after taking just a couple of its numbers (that any market leaves) and computing them out. Unfortunately we humans cannot get it 100% all the time. However the Author demonstrates with much improved charts that are seen and read easily, in this book again and again that he is constantly and consistently over 99.++++% accurate. Yes down to the fourth decimal point! The Author has developed a process and technology for you to be able to do this as well and all within the information contained in this one book. You can use the information contained in my book right down to Tick charts to years in advance and even more. The methods and principle are simple, but one had to work them out, and that is what the author has done for you. This is the only book that the author has found so far that provides mathematically proof that this works, No not one other book from another author, offers you this - a Target Percentage of Accuracy. You will achieve this accuracy 95% and over time maybe 99-100% but mostly 99.++++% on your targeting. The technology and processes if

followed consistently will provide you with Accuracy almost unheard of in the Financial Markets before.
