

The Omega Team: Cyber Tracked: The Cobra Project (Kindle Worlds Novella) (IATO Series Book 4)

Rowan OMalley, descended from a long line of Irish Nationalists known for their affiliation with the NIRA, is wealthy, brilliant, and beautiful, but over time she learned to keep her distance from dangerous men. The self-made business woman, and one of the most exceptional cyber hackers alive, dragged herself from the dark net and developed system security programs that can't be broken. When IATO [International Anti-Terrorist Organization] discovers what she's capable of, they need her expertise to protect the international military security programs, but once the news about her new program gets out, there's a billion dollar bounty on her head. Cade James is assigned to get to her before the bounty hunters. His orders are to keep her alive and stop her from completing her newest project better yet buy it...but to do that he'll need to win her trust and her trust doesn't come easily. The former SEAL has no idea how capable the fragile beauty is, physically and intellectually, but when his perfect fantasy woman is more willing to seduce him before trusting him with her life or her project he's angry. She's going to take some convincing that his black-ops ghost group are the good guys, references or no references, especially since she can't find a trace of them in any government or dark net system. And yet in spite of all that, for once she considers following her heart instead of her head. She hopes she isn't wrong.
