

Passion-Driven Education: How to Use Your Child's Interests to Ignite a Lifelong Love of Learning

Here's the hard truth: the modern education system is a disaster. Why do parents subject their children to a process that disregards their interests, ignores their basic humanity, and subjects them to arbitrary mandates and micro-management? Your children deserve better than to be bored learning about subjects they aren't interested in and frustrated with endless busywork. There is a better way that ensures your child sees learning as a joy and provides you, the parent, with a much less stressful way to educate and empower your son or daughter. In this book, Connor Boyack shares the exciting philosophy and empowering day-to-day steps involved in passion-driven education. A child's curiosity and natural desire to learn are like a tiny flame, easily extinguished unless it's protected and given fuel. This book will help you as a parent both protect that flame of curiosity and supply it with the fuel necessary to make it burn bright throughout your child's life. Let's ignite our children's natural love of learning!
