Getting kids involved in the kitchen at an early age is a great, hands-on way to introduce them to new foods and teach them valuable skills. Gadgetology makes it fun for kids and parents alike. Parents will appreciate spending quality time with their children, broadening their kitchen horizons at an early age. Children will love using grown-up gadgets from an apple peeler to a whisk to play games, try simple recipes, make crafts, and conduct fun experiments. A box grater is certainly handy for shredding mozzarella to make Super Easy Lasagna, but it's also great for shredding crayons onto wax paper to be ironed into stained glass. In Gadgetology, Pam Abrams offers so many creative, fun, and safe uses for everyday gadgets that the kitchen will become an educational playground.
