

Advanced Web and Network Technologies, and Applications: APWeb 2008 International Workshops: BIDM, IWHDM, and DeWeb Shenyang, China, April 26-28, ... Papers (Lecture Notes in Computer Science)

This book constitutes the thoroughly refereed joint post-workshop proceedings of three international workshops held in conjunction with the 10th Asia-Pacific Web Conference, APWeb 2008, in Shenyang, China, in April 2008 (see LNCS 4976). The 15 revised full papers presented together with 4 invited papers and 4 keynote lectures were carefully reviewed and selected from numerous submissions. Topics addressed by the workshops are business intelligence and data mining (BIDM 2008), health data management (IWHDM 2008), and data engineering and Web technology research (DeWeb 2008). The papers focus on issues such as Web searching, Web services, database, data mining, bioinformatics, and business intelligence.

This paper studies the problem of building text classifiers using positive and unlabeled examples. . Papers of the APWeb 2008 International Workshops on Advanced Web and Network Technologies, and Applications, April 26-28, 2008, and Workshops: BIDM, IWHDM, and DeWeb Shenyang, China, April 26-28, 2008.
