

## Pre Primer Flash Words (Dolch List Flash Words Book 1)

This book of sight flash words from the Dolch List helps children easily master sight words. This book is written in large letters to make it easy to read. Pages are done separately, to address the issue of letter and picture distortion on some e-readers. The book is for children learning to read English, learning English as a second language and for parents teaching children to read. The book is one of several childrens books from this author, available from this outlet. The author was motivated to write childrens books when she had to teach her own twins born in 2006. English is a second language for them and the boys were doing very badly at school. They could not read, or speak English. Using the childrens books she writes, the author taught the twins to read and speak English. In 2014, one of the twins came out third overall in second grade at his school and the other twin came out in the top ten. What is working for her own children is what the author shares with other parents in her childrens books.
