There are no men on Mala's home planet. Only robots to serve and satisfy, but after viewing her space-traveling grandmothers documentary about the planet Earth, and seeing Sheriff, the superb male specimen in the documentary, Mala knows she must break the rules of forbidden space travel and see for herself what a real man is like. Sheriff Mason McKinley has his hands full after the town nutcase reports a UFO crashing near Devils Bend. The idiot already has three reporters from a national rag magazine convinced Big Foot is in the area. When he investigates, he doesn't find little green men, instead he finds a very sexy female stumbling around in the dark. Staying with Sheriff is the best solution. What wonderful things he has, like chocolate! It's her duty to explore Sheriff's planet and Sheriff. As long as the Elders don't realize she's gone, that is.
