

Neuroscience for the Study of Communicative Disorders (Point (Lippincott Williams & Wilkins))

Neuroscience for the Study of Communicative Disorders, Fourth Edition remains an ideal resource that teaches neuroscience fundamentals without encyclopedic details of anatomy and physiology. This text takes a step-by-step, simplified approach, and contains relevant information in its application of neuroscience for students and practitioners in speech-language pathology and audiology--making it the perfect text! Completely updated throughout, the Fourth Edition reflects the most recent findings and clinical applications.
