

# Recurring Issues in Auditing (RLE Accounting): Professional Debate 1875-1900

This book gives a flavour of the issues that concerned auditing practitioners more than one hundred years ago and which retain a certain relevance to us today. The material is arranged chronologically and thereby emphasizes the interconnections between the issues as well as conveying the overall depth and flavour of the debate.

An in-depth analysis set in the context of the ongoing debate on fiscal policy vis-a-vis monetary policy. They address issues at both the Central and the subnational government level, in a subnational governments have played a significant and distinct fiscal role.
