

Sparrows, Bedbugs, and Body Shadows: A Memoir (Intersections: Asian and Pacific American Transcultural Stud)

Growing up in revolutionary China, Sheldon (Xicheng) Lou was among the millions forced to adopt the goals of Maos new society. His captivating memoir, written against the backdrop of the early decades of the Peoples Republic, offers a rare and personal look at Chinas dream of a Communist paradise - from Maos preposterous campaign to rid the country of sparrows to the communes and backyard steel-making of the Great Leap Forward to the madness of the Cultural Revolution and its aftermath.
