In *Witch Moon*, a teacher in small town is entangled in suspicion, when the deaths of some of her students have occult trappings. A young girl in need has asked for her help in understanding her own strange powers, but to help the child, means to put herself at further risk especially with the girl's gorgeous widowed father. *Everything She Does is Magick* has a young doctor from a long line of witches, unaware she's pre-destined to bear a very special baby. The father too, is pre-ordained. The catch is that her three aunts must keep him a virgin until the time comes! Hilarity ensues, in this deeply moving, fun romance. *Musketeer By Moonlight* has a spunky PI in trouble, hiding out in the home of her eccentric aunt, and snooping through her *Book of Shadows*. She accidentally conjures a real live Musketeer, not knowing he is everything she's been wishing for.
