

Elvis and Lennon

ELVIS and LENNON** By Chris Hutchins and Peter Thompson HOW the meeting at Elviss Bel Air mansion arranged by their friend, the co-author Chris Hutchins lit the touch paper for a dangerous feud between John Lennon, the anti-war idealist, and Elvis, the former tank corps sergeant. HOW Elvis, the drug-busting Federal agent plotted with the FBI to have John Lennon deported from the United States. HOW the Beatles roistered through the Hamburg Reeperbahn on drink, drugs and sex and Little Richard quoted scripture in a bid to seduce Ringo. HOW John Lennon fell in love with a cult British singer and only her untimely death threw him into the arms of Yoko One. HOW Frank Sinatra intervened to save Elvis from his drug nightmare. HOW Elviss one-time lover Jayne Mansfield set out to seduce John, but her tarot card reader intervened and foretold their violent deaths with terrifying accuracy. HOW Pricilla Beaulieu Presley turned to a previously undisclosed lover after she fled from her marriage to Elvis. HOW Elvis confided the secret of his one true love to a close friend, but then discussed marriage with another woman only a few hours before he died and what really happened at Graceland on that apocalyptic night. HOW Colonel Tom Parker, Elviss legendary manager, guided the authors in America, allowing Hutchins unprecedented access to his hallowed shrine to the King. **This Kindle book is also published under its original UK hardback title, Elvis meets the Beatles
