

Hellenica - A History of My Times: Books I-VII Complete

Hellenica is Xenophon's chronicle of the history of the Greeks, or the Hellenes from 411 to 359 BCE. It is a continuation of Thucydides' narrative, History of the Peloponnesian War. This history covers the last seven years of the war, and its aftermath. It is one of the few surviving narratives from this period and is generally considered to be the most authoritative. The author Xenophon was born in Athens about 430 BCE. It may be inferred from passages in the Hellenica that he fought at Arginusae (406), and that he was present at the return of Alcibiades (408), the trial of the Generals, and the overthrow of the Thirty. In 401, being invited by his friend Proxenus to join the expedition of the younger Cyrus against his brother, Artaxerxes II of Persia, he at once accepted the offer. Of the expedition itself, he has given a full and detailed account in his Anabasis: The March Up Country, sometimes called The Persian Expedition. At Coroneia (394) he fought with the Spartans against the Athenians and Thebans, for which his fellow citizens decreed his banishment. The Spartans provided a home for him at Scillus in Elis until Sparta and Athens became allies whereupon he then made his home at Corinth. The year of his death is thought to be 355 BCE. This restored translation contains all 7 complete books of Xenophon's narrative, including an indexed Table of Contents listing page numbers for each year of the war. This edition is recommended for teachers and students of history, classical literature and languages.
