

How the Euro Was Saved

A vivid and authoritative account of how the eurozone crisis was laid to rest but left a sullen Europe in its wake. This ebook expands and updates an investigation published by the Financial Times in 2014. Peter Spiegel, the newspaper's bureau chief in Brussels, takes the reader deep into the corridors of power to tell a piece of history that will go down as one of Europe's defining moments. How the Euro was Saved is required reading for anyone with an interest in European history and current affairs and follows in the footsteps of the FT's best selling ebook, If Greece goes

AP Euro coins and banknotes at a shop in Vilnius, Lithuania. The euro was a system almost designed to fail. Editors note: The opinions in this4 days ago The euro may be approaching another crisis. Italy, the Eurozone's third largest economy, has chosen what can at best be described as a But saving the euro will be immensely difficult, and will require political, ideological and institutional changes. The euro always had seriousThe economies of the eurozone countries are plagued by multiple crises, which cast major doubts over the future of the euro. In this engaging new book, leadingThe fact that Europe is no longer in decline is not a sign that the austerity policies worked or that the euro-crisis is over. Some countries are still in depression. - 5 min - Uploaded by Financial TimesPeter Spiegel, the Financial Times Brussels bureau chief, recounts the moments in 2011 and The euro may be approaching another crisis. Italy, the eurozone's third largest economy, has chosen what can at best be described as a We took a look at three scenarios that could lead to the euro splinteringand three that could see the currency coming through the populistThe economies of the eurozone countries are plagued by multiple crises, which cast major doubts over the future of the euro. In this engaging new book, leading On Jan. 1, 1999, the euro was launched in electronic form. A few years later, amidst much fanfare, 12 European countries began replacing Euro coins and banknotes at a shop in Vilnius, Lithuania. The euro was a system almost designed to fail. Photograph: Mindaugas Kulbis/AP. The Big Read How the euro was saved Part 3. Greece was imploding politically Italy, a country too big to bail out, appeared just days away It is easy to envision a downward spiral that results in multiple countries leaving the euro amidst a financial and economic meltdown. It is almost Exactly five years ago, European Central Bank president Mario Draghi demonstrated the power of words.
